

URGENT act now!

OUTREACH 2004
11-13 January 2004
Amman, Jordan

INTERNATIONAL EXHIBITION & WORKSHOP PROGRAM

Your Gateway to the Business of Rebuilding IRAQ

*Addressing the needs of the region
and especially the Iraqi nation...*

Present your products and sales message to the decision-makers from the Iraqi government and private sector; CPA, USAID, DoD and all the prime contractors involved in the reconstruction efforts in Iraq.

Exhibit categories include equipment and services related to:
Construction, Healthcare, Environmental Systems, Security, Oil and Gas Recovery, Roads, Ports and Airports, IT and Communications, Schools, Agriculture and Food Processing, and Life Style and Home Furnishings

Fully supported and
endorsed by the United
States Government

VIP Visitor Program

OUTREACH 2004 is working closely with the U.S. Government and CPA authorities in Amman and Baghdad to insure the participation of Iraqi and CPA decision makers for the Exhibition and Workshops.

Exhibitors will meet and hear from Ministry-level participants as they learn first-hand the requirements and procedures necessary to be part of the reconstruction process.

In Washington, the Supplemental Budget has been approved and signed. Money is flowing into the region, and, through the **OUTREACH Workshops**, exhibitors can gain access to the program administrators, as they share their vision and the process required to effectively compete for contracts.

The first step, however, is up to you- *be there and be part of the success!*

**Exhibit space is limited
Reserve yours soon!**

Why Amman, Jordan?

Amman is a traditional business gateway to Iraq (especially over the last decades) - Iraq's largest trading partner is Jordan.

Five-star accommodations are reasonably priced. Iraqis regularly travel to/from Jordan.

Travel to / from Amman from the USA is easy and affordable (non-stop flights from New York).

Jordan is safe and organized - freight moves in / out easily - the logistics of doing business there are simpler than other regional cities.
